

Aurex Constructors

Multi-discipline Construction

Project experience that understands your needs

Aurex Constructors are leaders in the field of self-performing structural, mechanical, electrical, instrumentation, piping and platework (SMEIPP) construction projects in South Africa. Our knowledgeable and experienced team ensures that the construction of new plants and retrofits, refurbishments and expansions of existing projects are managed efficiently and according to your requirements and schedule. As a business, we strive to perform and work with our customers to deliver successful construction projects time and time again.

What we offer

Industry experience in:

- ^ Crude refineries
- ^ Petro-chemical
- ^ Power generation
- ^ Mining & metallurgy
- ^ Pulp & paper

Our demonstrated ability to:

- ^ Undertake the most demanding construction projects,
- ^ Complete the scope of work within the agreed time-frame,
- ^ Manage sub-contractors,
- ^ Conform to cost efficacies and the highest quality and safety standards.

- ^ Structural, mechanical, piping and platework (SMPP)
- ^ Electrical and instrumentation
- ^ Steel supply, fabrication and erection
- ^ Mechanical assembly and alignment
- ^ Piping supply, fabrication and erection
- ^ Rigging, including heavy lifts and transportation
- ^ Vessel supply, fabrication and erection
- ^ Platework supply, fabrication and erection
- ^ Project management of all direct and indirect resources

Integrated project management experience

We have the expertise to deliver an integrated project management experience that is focused on a one-team approach and is fueled by passion and commitment to your project success. Our highly skilled project management team follows a hands-on approach to ensure your innovative end-to-end construction solutions are managed effectively, from the blueprint to the build.

Procurement, logistics and support

Over the years we have established an extensive supply chain network that not only ensures cost savings and fast delivery but also adds to the procurement, logistic and support functions needed to provide unparalleled service delivery.

Aurex Constructors

Multi-discipline Construction

Completions and commissioning

We offer you specialist service in commissioning preparation, commissioning, completions and start-up and operations either in conjunction with, or independent of, project construction activities.

Remote construction and commissioning

Our agility ensures the successful delivery of your project even in areas that present significant or unusual challenges, i.e. weather and terrain, availability of local resources, constraints in supply chain or inadequate infrastructure.

Supply chain

Our supply chain network is well established ensuring lower costs and fast delivery. Our procurement and logistics teams are dedicated to support site construction, completion and commissioning teams with first class service delivery.

Experienced in delivering complex projects successfully to our customers
